 **ACORN**
COMPUTER

The elegant injection moulded plastic case houses a full size professional keyboard and a hardware/software combination of extraordinary power and versatility. In the minimum price configuration the kit of parts provided allows BASIC and ASSEMBLER, graphics and sound output, direct cassette and TV interface and much more. Sockets and connectors allow for expansion within the case to allow features normally associated with computers costing ten times as much.

Every kit is sent with assembly instructions and a beginners guide to Atom BASIC, ASSEMBLER and operating system.

The basic unit in kit form costs £120 plus VAT and postage, total £143.00. Prices and details of ready built units and accessories on request. Delivery in beginning of May.
